mini
Wish
design by Structures

Mini Wish is an artistic handmade lamp composed of 12 optical fibers.

It has a rechargeable lithium battery with a battery life of 4.5 to 40 hours.

The product is waterproof, classed as IPX4, it withstands rain in all conditions.

Instructions :

- 1 clic : Red light (40 hours battery life)
- 2 clics : 20 lumens (12 hours battery life)
- 3 clics : 40 lumens (7 hours battery life)

- ON/OFF: either press and hold or 3 second time delay.

Charging:

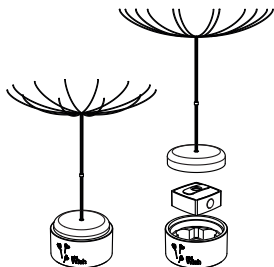

When charging, a red pilot light indicates that charging has begun.

Battery level:

When the battery only has 20% remaining the light flashes 5 times.

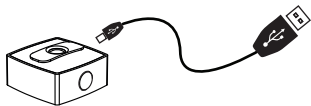

To charge your lamp :

1)

Pull the cork lid to access the light system.

2)

Lift the tab to access the micro USB port.

The battery can be charged thanks to the provided cable by plugging it into any standard USB port (phone charger, computer)
