mini
Wish
design by Structures

Mini Wish is an artistic handmade lamp composed of 12 optical fibers.

It has a rechargeable lithium battery with a battery life of 4.5 to 40 hours.
The product is waterproof classed IPX4, it withstands rain in all conditions.

Instructions:

- 1 clic : Red light (40 hours battery life)
 - 2 clics : 20 lumens (12 hours battery life)
 - 3 clics : 40 lumens (7 hours battery life)
 - 4 clics : 60 lumens (4.5 hours battery life)
- ON/OFF: Either press and hold or 3 seconds time delay.

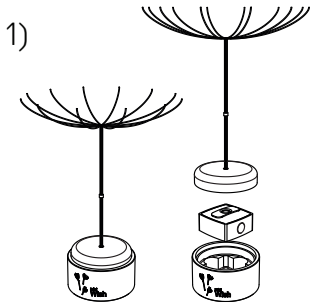

Charging:

When charging, a red pilot light indicates that charging has begun.

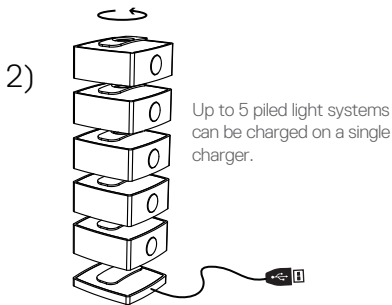

Battery level:

When the battery has only 20% remaining the light flashed 5 times.

To Charge your lamp:

Pull the cork lid to access the light system.

Fit the light system on the charger thanks to a quarter turn rotation.

The charger cable can be plugged into any standard USB port (phone charger, computer)
