## INO

## Instructions

### Congratulations !

You are the happy owner of a new generation of S7 lamp, endowed with a total modularity (design, height, orientation and intensity).

With INO, the light is not static anymore, it evolves according to your desires, your needs.

You can adapt the light to all your living spaces.

Your INO lamp was designed and made in France with highest care.

And now, play on !

### IP CLASSIFICATION

The lamp INO is indoor, IP21.

### WARRANTY

Your INO lamp is guaranteed 2 years, parts and service (from the invoice date).

The warranty does not apply in the following cases:

- > Improper or negligent use of the lamp
- > Electrical installation does not comply with safety standards in force
- > Damages caused by accidental events or by force majeure, lightning, flooding, fire, environmental or climate conditions or of any other nature that is incompatible with the product
- > Damages caused by transport or handling

FABRIQUE EN FRANCE

**IMPORTANT**

The safety of this device is guaranteed only if the instructions are followed correctly. Please read them carefully and keep for future reference.

**PLEASE READ INSTRUCTIONS THOROUGHLY BEFORE USING**

**WARNING:**

Unplug the lamp before performing any work on the device. Do not use any power source other than the device provided.

**INSTALLATION AND USING INSTRUCTIONS**

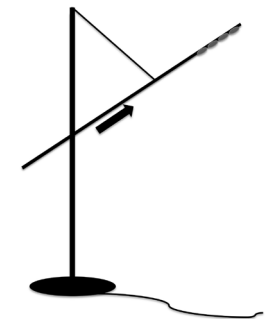

For better comfort, we advise to settle a hand on the strap and the other on the pole.  
 CAUTION : the height under ceiling

1 – Deploy the pole

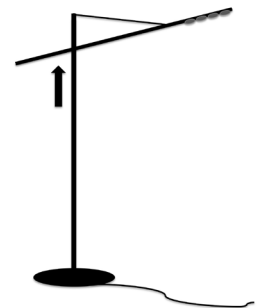

WARNING : When the cable reaches its maximum, it locks. Avoid forcing.

2 – Slide the pole into the strap

3 – Slide the strap along the mast

4 – Plug the adapter

5 – Turn on the light thanks to the sensitive touch dimmer\*

\* Quick pression = ON/OFF

Long pression = Increase/decrease of the light intensity
