## Origin

## Instructions

### Congratulations !

You are the happy owner of a new generation of S7 lamp, endowed with a total modularity (design, height, orientation and intensity)

With S7, the light is not static anymore... It is going to be able to evolve according to your desires, your needs...

You can adapt the light to all your living spaces.

Your S7 lamp was designed and made in France with highest care.

And now, play on !

### IP CLASSIFICATION

The connection between the headlamp and the structural tube is IP54, except for wooden and Wish headlamps which are IP30.

When power cords are unplugged, the corks MUST be well locked by a quarter turn in order to protect your products from dust and humidity.

In the case of OUTDOOR power supply (without dimmer) the connection between the plug and the lamp is IP44 only if cork is well locked (by a quarter turn).

### WARRANTY

Your S7 lamp is guaranteed 2 years, parts and service (from the invoice date).

#### The warranty does not apply in the following cases:

- > Excessive bending of the structural tube more than the diameter of the base.
- > Detachment of connection elements if the instructions for use are not properly followed.
- > Improper or negligent use of the lamp.
- > Electrical installation does not comply with safety standards in force.
- > Damages caused by accidental events or by force majeure, lightning, flooding, fire, environmental or climate conditions or of any other nature that is incompatible with the product.
- > Damages caused by transport or handling.
- > Water infiltration through the connectors of the lamp and/or of the battery due to not using the waterproof corks.
- > Damages caused by connection of the battery charger directly to the S7 lamp without the battery (battery in option).
